## DESIGN

INTER PLAY stands for DESIGN. Children love to play in beautiful and inspiring spaces. We are particularly proud of our stainless steel collection LIMAKO, a wide range of play equipment inspired by the shape of a snail. This unique design is visible in every element of the LIMAKO play equipment – from swings to large playground sets.

limako = 

## INNOVATION

INTER-PLAY stands for INNOVATION. Our R&D department is constantly searching for new solutions to bring children more joy and fun! One of the latest innovations is the LUMO PLAY series – please see the picture below and discover how unique solutions offer the LUMO PLAY!

## INCLUSION

INTER PLAY stands for INCLUSION. We offer a wide range of play equipment accessible for children of all abilities. Our goal is to enable all children to play together on our play equipment and to give them equal opportunities in life to discover and develop. We use the highest safety standards considering the special needs of persons in wheelchairs.

## QUALITY

INTER PLAY stands for QUALITY. Our products are made to be used by hundreds of children daily! For us it is a great satisfaction to see children still playing on our devices installed 10, 15 or even 20 years ago. To ensure a long-life of our equipment we use the highest quality components and materials available on the market. A number of key components are developed internally by our R&D department. One of them are extremely strong and durable, unique in shape HERCULES lamellas, of which we are very proud!
